The Office of Publications Services printed this book on recycled paper using nontoxic, soy-based inks.

Please recycle all old staff directories in your office's paper-recycling bins. Thank you!

The Staff Directory is published annually by the University of Illinois at Chicago.

Every effort is made to ensure accuracy and completeness of all entries. The Staff Directory contact persons, who are listed on pages A27–A29, are essential to this process. Please refer questions or comments about the directory to Staff Directory Control at (312) 413-9490.

General Information

The General Information section contains details about the University and the UIC campus. It includes the academic calendar, organization charts, listings of campus facilities and departmental street addresses, maps of the campus and other University sites, shuttle bus routes and schedules, and travel directions. There are also several "How to" pages that cover emergency procedures and the telephone, mail, and computer systems.

UIC at a Glance

WHAT: The University of Illinois at Chicago is the largest institution of higher learning in the Chicago area, one of 88 Research I universities in the United States, and an increasingly significant center for education, research, and public service.

WHERE: Just west of Chicago's Loop. The campus includes 90 buildings on about 216 acres bounded on the east by Clinton Street and on the west by Leavitt Street. Most of the campus is south of the Eisenhower Expressway and north of Roosevelt Road. Current value of UIC's land, buildings, and equipment is estimated at more than $1 billion.

WHO: More than 24,000 students (approximately 66% undergraduate, 34% graduate and professional degree students) and 12,000 full-time faculty and staff.

ACADEMIC ORGANIZATION: Colleges of Architecture and the Arts; Business Administration; Dentistry; Education; Engineering; Health and Human Development Sciences; Liberal Arts and Sciences; Medicine (at Chicago, Peoria, Rockford, and Urbana-Champaign); Nursing (at Peoria, Quad Cities, Rockford, and Urbana-Champaign); Pharmacy; Urban Planning and Public Affairs; Jane Addams College of Social Work; School of Public Health; Graduate College; Honors College; and the UIC Medical Center.

ADMINISTRATIVE ORGANIZATION: The Board of Trustees of the University of Illinois is responsible for examining and defining broad policy and financial issues. The University president, reporting to the board, initiates and guides overall university development. UIC's chancellor, who reports to the president, is the chief academic/administrative officer of the campus.

DEGREES: Doctorates in 57 specializations, master's degrees in 83 disciplines, bachelor's degrees in 92 academic areas.

BUDGET: Operating budget for fiscal year 1999–2000 is approximately $1.06 billion; of that total, $314.27 million (or 30 percent) is state appropriated.

RESEARCH: UIC's yearly research expenditures total nearly $160 million

ATHLETICS: UIC fields 14 teams in NCAA Division I intercollegiate athletics. Home for the UIC "Flames" in basketball is the UIC Pavilion.

Operator Assistance 0

UNIVERSITY POLICE

The University Police can be reached 24 hours a day, seven days a week by dialing 996-HELP (996-4357), or by dialing "0" for the operator and asking for the police. University police are sworn officers with statewide jurisdiction. The Police Department is located in the Services Building at 1130 South Morgan Street.

The UIC Police are the primary response agency in an emergency. UIC police officers are trained to assess a situation and obtain medical or other assistance as needed, and they are responsible for notifying appropriate university departments of incidents. Any injury or illness or activity should be reported to the police. People often feel unsure whether a situation warrants police attention. It is always appropriate to report any kind of incident to the University Police. Confidentiality will be respected.

The officer also files a police report about the incident. Individuals may request a copy of the report if needed (e.g., insurance claims). The Chicago Police Department, the Office of Claims Management, the Office of Campus Risk Management, and the Environmental Health and Safety Office may also contact employees who are involved in or who are witnesses to an incident.

Community Relations Office

The Community Relations Office serves the entire university with bulletins, presentations, and security seminars throughout the year. Community Relations Officers can also help units develop security programs that address their specific needs. Officers can be reached at 996-6779.

ENVIRONMENTAL HEALTH AND SAFETY OFFICE

The Environmental Health and Safety Office (EHSO) responds to emergencies 24 hours a day, seven days a week. They investigate all serious work-related accidents, injuries, and illnesses. Whenever a significant quantity of hazardous material is released or spilled, EHSO provides technical advice to emergency response personnel. The office advises and assists other university units, and coordinates university relations with regulatory agencies.

EMERGENCY GUIDELINES

The first defense against emergencies is to prevent them by being aware of one's surroundings, following safety rules, properly maintaining equipment, and eliminating physical hazards. In general, safety relates to the physical environment—biological, chemical, fire, radiation, and other hazards. Security refers to criminal activity such as assault, robbery, and theft. In the event of an emergency, primary consideration is to restore safety and security.

Detailed instructions concerning emergencies are contained in the Emergency Policies and Procedures Manual. The bound manual may be purchased via a Publications Services or miscellaneous voucher for $14.50, or unbound for $4.50. UIC Hospital and Clinics have their own emergency procedures.

Accident, illness, or injury

In case of accident, injury, or work-related illness of anyone on campus, contact the University Police at 996-HELP (996-4357) for emergencies or 996-2830 for non-emergencies. The police will assess the situation and provide transportation to appropriate medical attention, if needed.

Academic, support staff, and student employees. Any injury, however slight, to an employee while engaged in university work must be reported to the immediate supervisor. This procedure will safeguard the employee's interests under the Illinois Workers' Compensation Act. Failure to so report may affect the employee's right to compensation for time lost or reimbursement for expenses occurred. This is a requirement of the Workers' Compensation Act of the State of Illinois. The employee's supervisor is responsible for making the "Supervisor's First Report of Occupational Injury or Illness." This form is available from Worker's Compensation at 413-7581.

Students. All incidents involving students must be reported to the Office of the Dean of Student Affairs at 996-4857.

Visitors. Incidents involving university visitors must be reported to the University Police. They will notify other university departments and outside agencies as needed.

Alarms

Note the location of fire and emergency alarms in buildings, elevators, parking lots, and walkways. UIC has placed Startel Emergency Stations in more than 650 locations outdoors, in some hallways, in some restrooms, and in all elevators on campus. The outdoor brown kiosks are topped with a blue light that is lit at all times. Pushing the large red button in the middle of the kiosk provides direct voice communication with the police and causes the light to flash. The location of any activated alarm is displayed at the Police Department, allowing a unit to be dispatched to the location even if speech is impossible.

Please report any malfunction of Startel Emergency Stations to Telecommunications Repair at 996-7171. Anyone who tampers with, vandalizes, or deliberately activates a station without due cause is subject to prosecution.

Escort service

The "buddy" system is recommended as the most reliable strategy to ensure personal security. In addition, the escort service provided by the Student Patrol is an invaluable and prudent option. This service is available to employees, students, visitors, and other authorized individuals when traveling to and from university-owned buildings, parking lots, and property in the immediate campus area. Escorts accompany clients to their destinations on foot. Call the University Police at 996-2830 to request a Student Patrol escort.

Fire or explosion

Use the **RACE** acronym as a reminder of what to do in case of fire or explosion. However, in situations where potentially explosive or flammable materials (e.g., natural gas, chemicals) may be present, do not operate any electrical device (including telephones) or make an open flame. Evacuate the area immediately and call the police from a safe location.

Rescue:	Rescue or remove anyone in immediate danger from smoke or fire. Assist disabled persons to the nearest stairwell and notify the police of their location. Have someone wait with them until the fire department arrives with help.
Alarm:	Activate the fire alarm. These are located near stairwell and exit doors. Call the University Police at 996-FIRE (996-3473); they will notify the Chicago Fire Department.
Contain:	Contain the fire. Close but do not lock all doors. Properly closed doors can contain a fire in a room for an hour.
Extinguish or **E**vacuate	Use a fire extinguisher to put out the fire. If this is not possible, evacuate the area immediately by walking quickly to the nearest exit. Use the stairs to go to the ground floor; do not use the elevator unless instructed to do so by the Chicago Fire Department.

Do not enter a corridor, room, or stairwell where there is smoke or fire. Feel the door; if it is hot, do not open it. If trapped by fire and/or smoke, stay near the floor and shout for help. Notify the University Police of the location if possible, and place a bright article in the window to attract attention.

Hazardous materials or radiation

Report releases or spills of hazardous materials to the Health and Safety Section of the Environmental Health and Safety Office at 996-SAFE (996-7233) during working hours and to (312) 635-6172 after working hours. Report all incidents involving radioactive materials or exposure to ionizing radiation to the Radiation Safety Section at 996-7429 during working hours and to 996-8440 after working hours.

Severe weather conditions

The university does not close during severe weather, and employees are expected to report to work as scheduled. However, notification of class cancellation is available from the university's weather hotline at (312) 413-9696.

Utility emergencies

If there is immediate danger to persons from a utility emergency (electrical, flooding, etc.), follow the **RACE** guidelines described above. Notify the Service Desk of Facilities Management at 996-2834 to report any utility problems.

Using Computing Services at UIC

The Academic Computing and Communications Center (ACCC) supports the educational and research needs of the university with a wide range of computing and communications resources, including email, computer accounts, public microcomputer laboratories, and individual online storage allotments.

Every member of the UIC community, faculty, staff, and registered students, may open a personal email account to use to send and receive electronic mail (email). This account also provides access to the ACCC public microcomputers and online storage to use with them. They may also open a personal account on an ACCC general-purpose UNIX server to use for other computing tasks or to publish a personal Web page.

COMPUTER ACCOUNTS AND THE UIC ONLINE CAMPUS PHONEBOOK

An individual must be included in the online UIC campus phonebook database before they can open an ACCC email or UNIX account. University faculty and staff are entered in the online phonebook by their departments; students are entered automatically after they register for classes.

To be included in the online phonebook, faculty and staff members must fill out the "Staff Directory Personnel Information Form" on page **A26**. This form requests the individual's campus, home, and computer information. Specifically, faculty and staff members who are applying for a computer account for the first time must select a netid, which is used to identify their computer account(s). (See **http://www.uic.edu/depts/accc/ecomm/email.html** for more information about netids.) Instructions are listed on the form. Submit the completed form to the unit's staff directory contact person (listed on pages **A27–A29**) for approval and input.

After you are entered in the online campus directory (and for faculty and staff only, after you have selected and registered your netid), you may open your computer account(s) using the account creation facility, under **Accounts** on the ACCC World Wide Web home page (**http://www.uic.edu/depts/accc/**) or on any machine in an ACCC public microcomputer lab. If you have any questions or problems, see an ACCC consultant. ACCC consultants are available on a part-time basis in several ACCC public labs, or visit the Client Services Office (room 2267 SEL, 950 South Halsted, (312) 413-8080) or the consultant's office in room 181 BGRC (1940 West Taylor).

Campus phonebook entries and computer accounts are automatically checked to ensure that only officially appointed university personnel and registered students are listed in the directory and receive computer accounts. Computer accounts may be suspended if there is a discrepancy between these systems. Personnel should check their directory listing for accuracy, especially if their status has changed. Submit changes to the staff directory contact person (see pages **A27-A29**) using the form on page **A26**. Changes to home information must also be reported to Payroll, (312) 996-1922, directly or through the unit. Personal information for faculty and staff members from the online campus phonebook is published in the printed Staff Directory each fall.

ACCESSING THE ONLINE CAMPUS PHONEBOOK

There are a number of ways to access the information in the online campus phonebook, including the Search UIC Web page (**http://www.uic.edu/searchUIC.html**), the **ph** command when logged into your ACCC UNIX account, or through the ph or phonebook functions of personal computer email products supported by the ACCC, Eudora and WebMail.

The easiest way to access the UIC online campus phonebook is through the World Wide Web, using any Web browser. On the UIC home page at **http://www.uic.edu/** (or any of its other pages), point to and click on the yellow button at the top labeled **Phonebook**. This opens the Search UIC Web page.

There are three separate forms on the Search UIC Web page, for looking up individuals, for departments/units, and for searching UIC Web pages. Type the search criteria in one or more of the boxes on the appropriate form, then click the **Submit** button for that form. For example, to search for Snow White, type **snow white** in the Name box in the Finding Individuals form and click **Submit**. (Case and word order are ignored in phonebook searches.)

The information returned for individuals includes their name, email address, campus information, and, for students, college and major.

If too many records match the search criteria when searching for an individual, Search UIC will return an error message, "Too many entries to print." In this case, you must narrow the search. For example, there are too many matches for the name "Johnson", but specifying the Name **d* johnson** will return everyone whose first, middle, or last name is "Johnson" and who has another name that begins with a "d". (The * is a "wild card character"; it matches any number, including 0, of any characters.)

Much additional phonebook information is available on the Web. The easiest way to get started searching the Web is to click on your Web browser's **Search** button.

EMAIL

In order to send and receive email, you must have an email account with a personal email address, you must have access to software to compose, send, and receive email, and you must know your correspondent's email addresses.

Your email address is provided by your ACCC email or UNIX server account. (For more about your email address, see **http://www.uic.edu/depts/accc/ecomm/email.html** .) The best way to find out someone else's email address is to ask them. (Or, for people at UIC, look them up in the online campus phonebook; see Step 2 below.)

There is a wide choice of email software available; the ACCC provides and supports the following:

- WebMail, a Web-based email system; all you need to use WebMail is access to any modern Web browser. (Netscape is available on all the machines in the ACCC public microcomputer labs; use your ACCC email or UNIX account to login to these machines.).
- Eudora, a software package that you install and run on your own Windows or Mac personal computer. (Eudora for Windows and Macs is included in the Network Service Kit CD which may be purchased in the UIC campus bookstores. The ACCC also provides a limited number of free dialin telephone lines, all in the UIC campus 413 exchange. Again, use your ACCC email or UNIX account to login to the ACCC dialin lines.)
- Pine, a UNIX email program. (You must have an account on an ACCC UNIX server and login to it to use **pine** .)

The ACCC recommends WebMail for beginners:

- WebMail requires no software installation or setup. The only thing you need is a Web browser, which most personal computers already have, so it can be used from pretty much anywhere.
- WebMail is a URL; it'll do everything you need it to do the first time you surf to its URL and login.
- WebMail is reasonably easy to use. It has a row buttons at the top of every window (and often also at the bottom). You click one of these buttons to do almost every task in WebMail.

Using WebMail

For example, here's how to use WebMail to send an email message to Professor Ada Byron, whose email address is **adabyron@uic.edu**.

Step 1. Login to WebMail. Use any Web browser to go to:
https://webmail.uic.edu/
Type your netid and password in the spaces provided, click in the circle beside the name of the server machine where your email account is located, then press **Enter** or click the **Login** button.

When WebMail opens, it displays the first 20 messages in your email account's Inbox, in the **New-Mail Messages** folder window. To read a message, click on the name in its **From:** column.)

Step 2. You use the **WebMail - Create Message** window to create and send new email messages. To open this window, click

.

Step 3. In the **WebMail - Create Message** window:

(1) In the **To:** box, type the name and email address of your correspondent:
Ada Byron Lovelace [adabyron@uic.edu]
You can also select the To: address from your WebMail address book or look it up in the UIC online campus phonebook (click 

). (WebMail will add your **From:** address for you when it sends the message.)

(2) Type the subject of the message in the **Subject:** box.

(3) Type the body of your mail message in the **Message:** box. WebMail will automatically move the cursor to the next line as needed, or you can press **Enter** to add a line and move your cursor to the beginning of the new line. WebMail will also scroll the screen when you fill the **Message:** box.

(4) If you wish, click 

to check the spelling in the body of your message. WebMail will offer to correct the spelling of each word that it doesn't find in its dictionary (English only) or to add that word to your personal dictionary.

(5) Click 

to send the message. WebMail saves a copy of each message you send in its sent-messages email folder, Outbox, where it will be kept by default for 15 days.

Step 4. Logout from WebMail. Click 

. *Be sure to logout every time you leave WebMail.*

GENERAL INFORMATION

For general information on using the ACCC facilities, see the ACCC World Wide Web home page, at:
http://www.uic.edu/depts/accc/

For information on using electronic mail at UIC, click the violet button at the top labeled **Email**. Click **Facilities** for information about the ACCC public personal computer labs, click **Accounts** for ACCC UNIX server accounts, and click **Services** for the ACCC dialin lines.

For person-to-person answers, send email to **consult@uic.edu** or visit or call the Client Services Office in room 2267 SEL, 950 South Halsted, phone (312) 413-8080.

Use this form to add, change, or delete personnel information from the Staff Directory. Please copy as needed.

Staff Directory Contact People

Publications Services edits, typesets, and prints the UIC Staff Directory, but the collection and input of data depends on several hundred individuals representing every department of the University. We would like to take this opportunity to recognize the people listed below for their contribution to this year's Staff Directory. Thank you!

*Denotes individuals who do not enter phonebook data directly into the Academic Data Network (ADN).

How to Use the University Telephone System

The Academic Computing and Communications Center (ACCC) Telecommunications provides a wide range of communications services, including installing and maintaining telephone services; offering voice mail services, as well as cellular phones, pagers, and telecommunications devices for the deaf (TDDs); providing campus directory assistance; and arranging videoconferences.

ACCC Telecommunications is located in Room 124 Paulina Street Building (MC 500), telephone 996-7144, fax 996-6896.

Billing Inquiries

Departments are billed monthly for telecommunications services. Refer questions to Financial Services at 996-0651.

Information and Orders

Call customer service at 996-7144.

Moves

Please advise customer service at 996-7144 at least one month prior to moving to minimize service interruption.

Telephone Repair Desk

Dial 996-7171. Please be prepared with the location, room, jack number, and a description of the problem.

UNIVERSITY POLICIES ON TELECOMMUNICATIONS

Restrictions

By submitting a requisition to ACCC Telecommunications, departments may restrict the class of service on telephones to allow campus only, local, suburban, long-distance, and/or international calls.

University policy restricts the use of telephones to university business only. Personal calls should be made using calling card, collect, or third-party billing.

Departments are responsible for monitoring telecommunications use and for initiating appropriate action against individuals for unauthorized use of university telecommunications equipment.

Outside Vendors

ACCC Telecommunications maintains contractual agreements and negotiated rates with telecommunications providers. The university requires an ACCC Telecommunications order and approval before purchase or leasing of any telecommunications equipment from an outside vendor. For information about obtaining services from outside vendors, please contact customer service at 996-7144.

UNIVERSITY TELEPHONE SYSTEM

The university telephone system permits callers outside the university to dial campus numbers directly without going through a switchboard. Campus telephone numbers are in area code 312, with a prefix of 355, 413, or 996.

Campus Extensions

To call other campus telephones, dial the last digit of the prefix (3, 5, or 6) and the four-digit extension.

Other University of Illinois Campuses

UIC College of Medicine at Peoria
Dial direct using area code 309 and the local seven-digit telephone number.

UIC College of Medicine at Rockford
Dial direct using area code 815 and the local seven-digit telephone number.

UI Springfield Campus
Dial direct using area code 217 and the local seven-digit telephone number.

UIUC Campus
Dial direct using area code 217 and the local seven-digit telephone number.

Affiliated Hospitals

The university telephone system maintains tie-lines to Cook County Hospital and the West Side VA Hospital. The tie-lines may be used for calls and pages to these hospitals, but calls from these hospital telephones to UIC must be dialed directly.

Michael Reese Hospital
To reach the hospital operator, dial direct at (312) 791-2000.

Cook County Hospital
From campus telephones, dial 139 + the four-digit extension or 139 + 0 for the hospital operator. From outside telephones, dial direct at (312) 633-6000 for the hospital operator.

West Side VA Hospital
From campus telephones, dial 131 + the four-digit extension, or 131 + 0 for the hospital operator. From outside telephones, dial direct at (312) 666-6500 to reach the hospital operator.

Hospital Patient Telephones

To reach patient telephones
Callers may dial direct to patient telephones.

1. From campus telephones, dial 3 + the four-digit extension.
2. From outside telephones, dial (312) 413 + the four-digit extension.
3. For patient information, dial (312) 996- 9634.

To call from patient telephones

1. Room-to-room: Dial 3 + the four- digit extension.
2. Campus telephone numbers: Dial the five-digit campus telephone number.
3. Local calls: UIC Hospital has an eight-mile radius calling area within area codes 312 and 773. For calls within area code 312, dial 9 + the seven-digit telephone number. For calls to area code 773 within the eight-mile radius, dial 9 + 1 + 773 +

the seven-digit telephone number. Calls outside the hospital calling area will prompt the recording "Your call cannot be completed as dialed."

4. For calls outside the designated calling area, calls must be made with a calling card, collect, or billed to a third-party. Follow the instructions under "Operator-assisted and calling card calls."

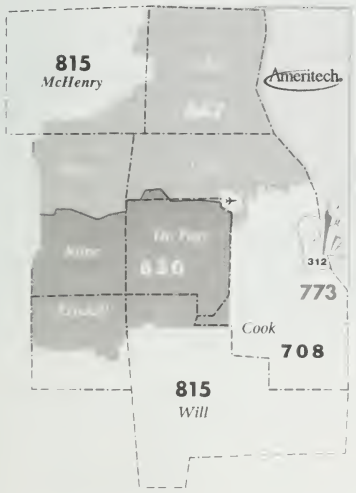

Student Residence Halls

For information on student housing or for telephone numbers for on-campus student residents, call 355-6300 from 8:00 a.m. to 11:00 p.m. After 11:00 p.m., only emergency calls to on-campus student residents will be connected to residents or referred to the community adviser on duty.

Outside Calls

Direct dialed calls

1. Local calls (within area code 312): Dial 9 + the seven-digit telephone number.
2. Chicago (area code 773) and suburban calls (area codes 630, 708, 815, and 847): Dial 9 + 1 + area code + the seven-digit local telephone number.
3. Long-distance calls (outside Chicago area, including Canada and the Caribbean/ Atlantic area): Dial 9 + 1 + the area code + the seven-digit local telephone number.
4. International calls (all other countries): Dial 9 + 011 + the country code + the city code + the local telephone number. (See Dontech yellow pages for codes.)
5. Ameritech national directory assistance: Dial 9 + 411. Note: There is a charge for directory assistance.

Area code map courtesy of Ameritech

Operator-Assisted and Calling Card Calls

Personal calls and calls from campus telephones where outside calls are restricted must be placed by calling card, collect, or third-party billing.

To reach the operator

University operator.....dial 0

Ameritech local operator.....dial 9 + 0

AT&T long-distance operator.....dial 9 + 00

The Ameritech operator at 9 + 0 can place collect, person-to-person, and third-party billing calls. Be prepared with the area code, telephone number, and, if applicable, the number to be billed. Follow the prompts or wait for operator assistance.

The AT&T long-distance operator at 9 + 00 can place calling card calls, in addition to collect, person-to-person, and third-party billing calls. Be prepared with the area code, telephone number, and calling card number. Follow the prompts or wait for operator assistance.

If using another company's calling card, dial 9 + their access number and follow the instructions on their card.

HOSPITAL PAGING SYSTEM

UIC Hospital uses the Telemanager 2000 paging system. Detailed instructions for paging, retrieval, and status changes are published in the ACCC's paging directory. For hospital pager inquiries, call 413-8200.

To Place a Page

UIC Hospital

To access Telemanager 2000:

1. From campus telephones, dial 136.
2. From outside telephones, dial (312) 996- 2242.
3. When prompted, enter the four-digit pager number.
4. Listen to the paging status.
5. Enter the call-back number, if desired. If off-campus, use the ten-digit telephone number, including the area code.

To reach the UIC Hospital page operator, dial (312) 996-2133 or (312) 996-6780.

Michael Reese Hospital

To access the automated paging system, dial (312) 808-1880 and follow the prompts. For the page operator, dial (312) 791-2000.

Cook County Hospital

To reach the page operator from campus telephones, dial 139-5401. From outside telephones, dial (312) 633-5401 for the page operator.

West Side VA Hospital

To reach the page operator from campus telephones, dial 131-0. From outside telephones, dial (312) 666-6500.

To Retrieve Messages and Change Availability Status

To access Telemanager 2000:

1. From campus telephones, dial 136.
2. From outside telephones, dial (312) 996- 2242.
3. When prompted, enter * plus the four-digit pager number.
4. Listen to the paging system prompts, then enter the appropriate number:
   Dial 1 to review messages.
   Dial 2 to change status or greeting.
   Dial 3 for covering referral.
   Dial 4 to change password.
   Dial 5 to change spoken name.
5. Follow the prompts to close the Telemanager 2000 session.

OTHER TELECOMMUNICATIONS SERVICES

Calling Cards

At the department's request, ACCC Telecommunications issues proprietary calling cards for individuals who travel on university business. Charges to calling cards are billed to the department each month. For calling card information and orders, call customer service at 996-7144.

The individual to whom the calling card is assigned is responsible for all charges to that card. Use of the card by anyone else is prohibited. Personal calls are restricted to reporting a safe arrival and, on extended travel, one five-minute call every other day, unless there is a change in travel plans.

Cellular Phones and Pagers

Cellular phones and pagers are vital communications tools for personnel who are away from their offices. Departments may order cellular phones and pagers for university business use. Call 413-2720 for information and orders.

Conference Calls

Three-way calls from single line sets

1. Depress the switchhook once; this places the second party on hold and accesses the dial tone.
2. Dial the third party's number.
3. When that party answers, depress the switchhook again to establish the conference call.
4. If the third party's number is busy or does not answer, depress the switchhook to reconnect the second party.

Three-way calls from multiline sets

1. Depress the "3WC/Transfer" key once; this places the second party on hold and accesses the dial tone.
2. Dial the third party's number.
3. When that party answers, depress the "3WC/Transfer" key again to establish the conference call.
4. If the third party's number is busy or does not answer, depress the "3WC/Transfer" key to reconnect the second party.

UIC operator-assisted conference calls

To establish a conference call for more than three parties, call the UIC conference call operator at 413-8200. Be prepared with all parties' information.

AT&T operator-assisted conference calls

To establish a conference call that includes an outside telephone number that is not to be billed for any call costs, call the AT&T conferences services operator at 1-800-232-1234. Be prepared with all parties' information, including the university telephone number to be charged for the call.

Telecommunications Device for the Deaf (TDD)

Designed to allow hearing-impaired people to communicate using telephone lines, the telecommunications device for the deaf (TDD) includes a keyboard that enables hearing-impaired persons to type a conversation over the telephone. To communicate with ACCC Telecommunications by TDD, call (312) 413-1220. To reach the Ameritech TDD operator from a TDD, call 1-800-526-0844. An Ameritech operator will type a message from a telephone caller to a TDD. To access this service, call 1-800-526-0857. For more information about TDDs, call the ACCC at 996-7000.

Voice Mail Services

Departments may activate voice mail services on any university telephone by submitting an ACCC Telecommunications Requisition to ACCC Telecommunications. Voice mail answers calls and stores messages when the line is in use or when there is no answer. Messages may be retrieved from any telephone, on or off campus. Other voice mail features include message forwarding and multiple distribution. For information or to order voice mail services, contact the voice services administrator at 413-2720.

Detailed information on using voice mail options is in the publication "UIC Voice," available from the voice services administrator at 413-2720.

How to Use the University Mail Service

The University Mail Service (UMS) serves the university community by picking up, sorting, and delivering campus mail; receiving, sorting, and delivering U.S. mail; and providing a full-service lettershop for outgoing mail. Services available from UMS are described in the publication "Using the University Mail Service," which is available from customer service. UMS personnel will also visit campus units to advise them on available mail services.

UMS is located in Room 119 Warehouse One (MC 766), 1524 South Peoria Street, Chicago, Illinois 60608-2200. To order mail services, call UMS customer service at 996-2885 or send a fax to 413-7730.

Campus and U.S. mail is delivered and picked up from most departmental mailbox locations twice daily. Deliveries begin by 8:00 a.m. and are completed by 3:30 p.m. Campus mail, stamped mail, and metered mail should be kept separate in the pickup location.

Mail to be metered should be placed in the department's mailbox along with a UMS requisition. In most cases, metered mail is dispatched on the same day if it arrives at UMS by noon. Messengered, international, certified, registered, express, and ground services are dispatched the same day if they arrive at UMS by noon.

UMS also offers a variety of messenger and delivery services—same day, overnight, two-day, and ground service, including shipments via United Parcel Service. In addition, some of the major delivery services have placed drop boxes with supplies and information at convenient locations throughout campus. Call customer service at 996-8571 for more information on using delivery and messenger services.

CAMPUS MAIL

Mail Codes

Three-digit mail codes have been assigned to all UIC departments. They function as internal zip codes. As part of the unit's official campus address, the mail code must be used in campus mail and on return addresses on U.S. mail. Please see the alphabetical mail code listing on pages A35–A38.

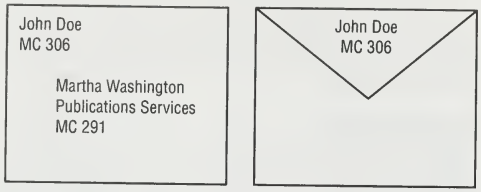

Addressing UIC Mail

When sending campus mail, use official UIC campus mail envelopes if possible. They are available in two sizes and may be ordered from General Stores. Follow the addressing instructions on the envelope.

When not using campus envelopes, follow the example below in addressing envelopes or labels.

From:	John Doe (MC 306)
To:	Martha Washington
Dept:	Publications Services
Mail code:	291

On noncampus envelopes, the return address may be on either the front panel or the back flap as shown below.

Red Letter Service

UMS delivers all UIC campus mail within one business day. For faster service, use Red Letter envelopes to ensure that mail will go out in the next delivery. Red Letter envelopes may be ordered for $1.00 each by sending a miscellaneous voucher or a Mailing Information Form to UMS (MC 766).

Urbana-Champaign Mail

Mail can be sent to UIUC at no charge via the intercampus shuttle, which operates daily and provides next-day delivery, weather permitting. UIUC mail can be placed with other mail in the departmental pickup location. There are also UIUC mail depositories located in the lobbies of the Administrative Office Building, Alumni Hall, Marshfield Building, Pharmacy Building, Roosevelt Road Building, Science and Engineering Offices Building, and University Hall. The pickup time for these locations is 5:00 p.m. daily.

Follow the format for addressing UIC campus mail, and add URBANA before the mail code.

From:	John Doe (MC 306)
To:	Thomas Jefferson
Dept:	Agronomy, 201 Turner Hall
Mail code:	URBANA (MC 046)

Other Campuses

Individually addressed mail to the University of Illinois at Springfield or to the UIC Rockford, Peoria, and Quad Cities campuses must be posted and sent through the U.S. mail. Mass mailings to the other campuses are sent in bulk for local distribution.

OUTSIDE MAIL

U.S. Mail

To take maximum advantage of U.S. Postal Service (USPS) automation and to speed mail delivery, follow these guidelines:

1. Print the address in uppercase letters, using no punctuation.
2. Use the building street address and zip + 4 code on all addresses.

For example:

MARTHA WASHINGTON
OFFICE OF PUBLICATIONS SERVICES (MC 291)
UNIVERSITY OF ILLINOIS AT CHICAGO
1524 S PEORIA ST RM 505
CHICAGO IL 60608-2200

Departmental street addresses are listed on pages A35–A38. Please refer questions regarding street addresses to customer service at 996-2885.

International Mail

Through an arrangement with an international re-mail carrier, UMS provides delivery of international mail at a discount of up to 25 percent off USPS rates. Attach a Mailing Information Form to letters or packages to international addresses and forward them to UMS to take advantage of this discount.

MASS MAILINGS

Campus Mailings

UMS processes both addressed and nonaddressed mass mailings. Labels for individually addressed mailings can be generated according to category from the UIC Staff Directory database (e.g., all female staff, all academic employees, etc.). Nonaddressed mailings are delivered in bulk to units for distribution. There is no charge for delivering campus mail, but there is a charge for any preparatory work, such as folding, inserting, or labeling. Call customer service at 996-2885 for further information.

U.S. Mail

UMS is equipped to prepare mass mailings that meet USPS requirements. Services include address correction, bar-coding, folding, inserting, labeling, list maintenance, metering, sorting, and wafer sealing. In addition, UMS maintains permits for both first-class and standard-mail postage. Call customer service at 996-8571 for information on mass mailings through the USPS.

Travel Directions

PUBLIC TRANSPORTATION

RTA

The Regional Transportation Authority (RTA) is a special service unit of local government that operates public transportation systems for the six counties of northeastern Illinois—Cook, DuPage, Kane, Lake, McHenry, and Will. The RTA system includes the Chicago Transit Authority (CTA), which provides bus and rapid transit service within the city of Chicago and to 38 suburban municipalities; Metra, the commuter rail division, which provides commuter rail service connecting downtown Chicago with 68 Chicago locations and 100 suburban communities; and Pace, the suburban bus division, which provides fixed-route bus, paratransit, and vanpool services to approximately 200 communities throughout the suburbs and from suburban locations to the city of Chicago.

The RTA Travel Information Center is open from 5:00 a.m. to 1:00 a.m. daily. For transit information or to order maps or timetables, call 836-7000 from any northeastern Illinois area code (312, 630, 708, 773, 815, or 847), or log on to their Website www.rtachicago.com.

CTA

The UIC campus is served by the CTA's Blue Line (O'Hare/Forest Park and 54/Cermak branches) rapid transit trains and several bus routes. West-side train service includes stops at the handicapped-accessible 54/Cermak train Polk Street station and the O'Hare/Forest Park train Medical Center station. East-side train service includes both O'Hare/Forest Park and 54/Cermak stops at Racine and UIC/Halsted stations. See the CTA/UIC campus map on page **A43** for details. Connections to all other CTA rail lines can be made in the Chicago Loop. See the CTA rail transit map on page **A42** for details. For information on CTA service, call 1-888-YOUR-CTA (1-888-968-7282), or log on to their Website at www.transitchicago.com.

Metra

Metra's system of 12 lines serves 230 stations in the six-county area and connects with Pace and CTA buses and trains. See the Metra commuter rail line map on page **A44** for details. For information on Metra service, call the RTA Travel Information Center at 836-7000 from any northeastern Illinois area code (312, 630, 708, 773, 815, or 847), or log on to their Website www.metrarail.com.

UIC provides commuter bus service between the Ogilvie Transportation Center (formerly North Western Station), Chicago Union Station, and the UIC campus. See the Commuter Bus Schedule on page **A46** for routes and times. Commuter bus tickets are sold in books of 25 by the cashiers in Chicago Circle Center and the Marshfield Building, and at the Campus Information Center in the Chicago Illini Union.

From the Ogilvie Transportation Center (formerly North Western Station) and Union Station, commuters may also use CTA bus No. 60 (Blue Island-26th Street) to reach the UIC campus. From the LaSalle Street Station and the Randolph Street Station, Metra commuters may take a west-bound Blue Line (Congress/Douglas A or B) train to one of the campus stops. See the CTA maps for further details.

Pace

For information on Pace service, call the RTA Travel Information Center at 836-7000 from any northeastern Illinois area code (312, 630, 708, 773, 815, or 847), or log on to their Website 222.pacebus.com.

Red Car Service and Transportation for the Disabled

The university has established an escort service to provide transportation to university employees, students, visitors, and other authorized individuals between university facilities and points of public transportation or resident facilities within a designated area. The vehicle used for this purpose is popularly known as the "Red Car" and operates with the following general boundaries: Halsted Street on the east, Western Avenue on the west, Eisenhower Expressway on the north, and Roosevelt Road on the south.

This service is available to individuals possessing a valid UIC i-*card*. The i-*card* is required to ensure the safety of the driver and other passengers. Disabled students should first contact the Office of Disability Services at (312) 413-2183 if they need transportation accommodations.

Escort vehicles are radio equipped and are dispatched by University Police. Hours of service are 5:12 p.m. to 7:15 a.m., seven days a week. Transportation may be secured by calling the University Police at 996-6800.

Personnel

The entire staff of the University of Illinois at Chicago is listed alphabetically in this section. Included in each entry are both campus information (including title, office address, phone, fax, and e-mail names) and home information (unless the employee has requested this not be included). In addition to current staff, the directory contains updated entries for almost four hundred of UIC's retired and emeritus personnel.

UIC Outpatient Care Center

The UIC Outpatient Care Center, located at Taylor and Wood Streets, is the newest addition to the UIC Medical Center. It brings together 28 clinics previously housed in various buildings throughout the west side of campus. Combining specialty practices into 10 multidisciplinary centers with state-of-the-art facilities, the OCC allows patients to see doctors, undergo tests, and receive treatments and a variety of other health care services in one day and in one place. Bridges conveniently link the four-story, glass-and-brick structure to the UIC Hospital, the Eye and Ear Infirmary, the Neuropsychiatric Institute, and the Wood Street Parking Structure.
